

Don't Dump in Benton County

Illegal dumping remains a serious problem and Benton County Environmental Enforcement Officers receive and respond to hundreds of complaints about illegal dumping in the unincorporated areas of Benton County every year.

Every household, school and business creates trash. There are many ways to legally dispose of trash to protect the environment, including recycling and disposal in a permitted landfill. Illegal dumping is a harmful way to dispose of waste. Sometimes people dump their waste beside a road or on vacant property. They may even have the landowner's permission to dump, but the dump is still a danger to people and the environment.

Illegal Dumps Solution

Benton County Environmental office, other local governments, solid waste management districts and the Arkansas Department of Environmental Quality work together to identify and rid Benton County of illegal dumps.

Let's get waste out of the landscape and into the landfills!

We all must do our part to stop illegal dumping.

So, don't wait!

If you know about illegal dumping activity, contact the Benton County Environmental office at 271-1083 Your environment depends on it!
