Mss. Beale,

I am writing in regards to the proposed Kayak Park on Fisher Ford Road that will be established by the City of Siloam Springs. The City will not be installing any electrical services at this location at this time. The City will be utilizing solar lighting fixtures to light the park and the parking facilities. In the future, the City may decide to install electric services, but it will not be in the foreseeable future.

If you have any questions or need any further information regarding the electrical or lighting plans for this park, please feel free to contact me.

Sincerely,
